OF THE PATENT TERM ADJUSTMENT UNDER 35 U.S.C. § 154(b)
INDICATED IN THE NOTICE OF ALLOWANCE

Sir:

The Applicants request reconsideration of the patent term adjustment of three hundred and sixty-one (361) days indicated on both the Issue Notification of December 21, 2005 for the above-identified Patent, and the corresponding cover sheet of that patent. For the reasons provided below, the Applicants further request that the above-identified patent application be afforded a patent term adjustment of five (5) more days, making a total of **three hundred and sixty-six (366) additional days**. For the USPTO's convenience, the Applicants enclose a hard copy of the Analysis Summary Report compiled by a commercial software program that contains the Applicant's determination of the patent term adjustment.

01/23/2006 CNGUYEN3 00000003 190365 09994064

01 FC:1455 200.00 DA

Serial No.: 09/993,777

In accordance with 37 C.F.R. §1.702, the above-identified patent application was filed after May 29, 2000 and therefore, is eligible for patent term adjustment under 35 U.S.C. §154(b). The patent issued on January 10, 2006.

(1) Please charge the fee of \$200.00 set forth in 37 C.F.R. § 1.18(e) to Deposit Account No. 19-0365. A Fee Transmittal Form is enclosed.

(2) The Applicants provide a statement of facts regarding the correct patent term adjustment under 37 CFR § 1.705 (b) as follows:

(i) The correct patent term adjustment should be **three hundred and sixty-six (366)** additional days. The Applicants enclose a hard copy of the Analysis Summary Report compiled by a commercial software program that contains the Applicants' determination of the patent term adjustment. In short, the net adjustment credits were 494 days and the net adjustment debits were 128 days, making the net adjustment 366 days. The Applicants believe the discrepancy between their calculation and that of the USPTO, is that the USPTO incorrectly included five (5) overlap days.

(ii) The Applicants do not contest the finding of the USPTO that:

- There are 494 net adjustment credit dates;
- There are 8 debit days due to receipt by the USPTO of the Applicants' response on January 30, 2003 to a non-final Office Action dated October 22, 2002, per 37 CFR §1.704(b);
- There are 120 debit days as a result of the filing of an Amendment under 37 CFR § 1.112, per 37 CFR § 1.704 (c) (10); and
- There are 5 debit days as a result of the Fee Transmittal being received by the USPTO on May 3, 2004, although due and mailed on April 28, 2004, per 37 CFR § 1.704(b). However, the Applicants respectfully point out that the term of the last two items run concurrently.

Serial No.: 09/993,777

and therefore, there are **five(5) overlap days** that were incorrectly deducted from the 494 net adjustment credit days.

Therefore, the total number of debit days are:

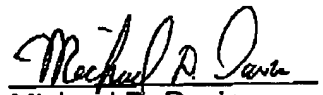

$$8 + 120 = 128;$$

and the patent term adjustment therefore, should be **three hundred and sixty-six (366)** additional days based on subtracting the one hundred and twenty-eight (128) debit days from the sum of the four hundred and ninety-four (494) credit days. [37 C.F.R. §1.703(f)].

(iii) The patent is currently subject to a terminal disclaimer. However, the Applicants filed a Petition on February 19, 2004 to expunge the file history of this terminal disclaimer based on the Examiner's determination that the rejection for non-statutory obviousness double patenting had been made inappropriately. The Examiner stated in an Interview Summary dated September 23, 2003, that, "the Applicant may take appropriate action to expunge the terminal disclaimer from the file as it is not necessary in view of the withdrawal of the rejection." As stated above, the Applicants have taken the necessary action to expunge the terminal disclaimer and await the final ruling of the USPTO.

No additional fees are believed to arise due to this filing, however, if any additional fees are required, the Commissioner is hereby authorized to charge any required fees to Deposit Account No. 19-0365.
